*Re: Request to Upgrade to LED/Digital
Registration No. 15421
US-64, Tulsa County*

Dear Sign Owner:

We are in receipt of the request submitted by Whistler Billboards to upgrade the above-referenced sign to LED/digital technology and have made our review. Unfortunately, we are unable to approve this request. Through our review process of the sign location and current zoning, we have discovered that the sign site does not meet HBA requirements as defined by state and federal highway beautification laws because the sign site is within 500 ft. of Washington Irving Park, and the property is zoned AG.

This site does not meet the HBA requirements for a Class "A" permit and was registered as a grandfathered sign when ODOT designated US-64 as a regulated route. The existing structure did utilize tri-vision on the date of discovery and can continue to be used. However, the structure cannot be upgraded in anyway. As a grandfathered sign, the rules and regulations for grandfathered permits will be enforced.

Please give our office a call if you have any questions or would like to discuss this matter. (405)521-3005.

Respectfully,

Thomas Davis

Re: Registration Permit # 15421

Thomas:

By way of this letter, Whistler requests to change the above-referenced permit for the existing billboard's changeable message technology from Tri-Vision to LED as sanctioned under the same sign regulations. Whistler is committed to complying with the regulations pertaining to illuminated signs as outlined in the Oklahoma Administrative Code, Title 730:35-5-12 (c).

Sincerely,

Elaine Allred
