Re: Change in Approved Sign Location
Sign Registration No.: 15273
I-40, Oklahoma County

Dear Mr. Moore:

Recently while in the field an inspector confirmed that the sign structure had been built approximately 70 feet west of its approved site. To remain in compliance our office has spacing regulations that must be followed and when a sign is approved for outdoor advertising, they are approved at the specific site of the original staked location due to these regulations.

Fortunately, the new adjusted location does not have a spacing conflict and it will be allowed to remain in the new location. For future reference, please contact our office before any changes are made to the sign or to its location.

If you would like to discuss or have any questions regarding this matter, please contact our office at (405) 521-3005.

Respectfully,

Barbara Hoppes
